

SIZZLING TREATMENT

Most couples confine their love making to their bedroom. Add Sizzle by going Outside the Bedroom.

- Family/living room – This room will normally have a fireplace which adds warmth and lighting for lovemaking. If there is a music system it can provide
- soft romantic music for the encounter.
- Kitchen – Gives a great opportunity to be intimate before the sexual encounter.
- Dim the light, hold hands and enjoy conversation or a cup of coffee.
- Screened-in porches – Gives the feel of outdoors but the protection of indoors. It provides a great opportunity to star gaze or even watch an electrical storm in the distance.
- Guest bedrooms – Excitement can be added just by changing bedrooms.
- The backyard – Only if there is privacy, but many couples find it romantic to go outside in the backyard or on the deck on a moonlit night.
- Inside the car or van – This can bring back some memories and lost passion. The car offers a comfortable environment to talk, listen to music and
- be romantic.
- Beach, mountains, and woods – These are wonderful natural places that add variety to the sexual experience. Find a secluded spot and wrap yourselves in a blanket for a brief but exciting encounter.
- Hotels and motels – Provides a great environment for intimate encounters.

Add Sizzle by Planning Ahead.

- Take a half day off from work and spend the time in bed.
- Pick an evening during the week and decide you will have no television and that you will go to bed early.
- Pick a weeknight and arrange to go to a hotel. Have a relaxing dinner and spend the rest of evening making love.
- Select a date each month and set this aside as your romantic encounter night.
- Arrange for a Saturday morning spent in bed after waking up. Those yard jobs and chores can wait until the afternoon.
